

Attention: Illinois Producers

New Lower Rates Effective April 16, 2009!!

Renewals Effective: May 16, 2009

After a review of the Illinois market, we've decided to reduce our rates to compete on a wider range of risks effective April 16th for new business. *Rates have been reduced by as much as 8-10% in select territories.* If you haven't quoted Omni recently, **NOW** is the time to do so!

These new rates have also been released to the ITC comparative rater. If you use ITC in your agency, please update the rater with Omni's new rates that are now significantly more competitive.

Keep in mind a few other features of our Illinois auto program:

- **Electronic Filing of SR-22s** – This insures faster and more accurate filing of your client's SR-22. **Remember** that the driver's license number and date of birth on the application **MUST** match their driver's license information or the filing may be rejected by the state.
- **Non-Owners Rates Available** – If your insured doesn't own a vehicle, but needs an SR-22 filing to get their license back, write a non-owners policy at a significant discount. As soon as they purchase a vehicle, you can quickly and easily endorse the vehicle onto the policy and convert it to an owners policy.
- **Quick On-line Endorsements** - You can make policy endorsements on-line and view your real-time commission statements daily! All policy documents are only a few clicks away on the web.
- **Reinstatement With a Lapse up to 30 Days** – Insureds cancelled for non-payment of premium have 30 days to reinstate their policy with a lapse in coverage, while retaining ALL discounts!
- **One Month Down Payment** - Insureds can pay as little as 16.67% on their down-payment making Omni even more affordable for your insureds!

If you still haven't tried Omni, quote us on your next ten auto risks and see how competitive Omni can be.
